To Whom it May Concern:

Girl Scouts of Eastern Iowa and Western Illinois have had the privilege of partnering with RK Dixon at a critical time in our organization. RK Dixon has stepped up to the plate and helped us to analyze our printing and document management needs at 5 locations, provided a solution that will reduce our costs, and increase the quality and productivity of our staff. This will allow us to serve all the location, as well as, take advantage of centralized printing and purchasing of supplies and paper.

RK Dixon evaluated and assisted us in developing a technology plan that will enable our organization to meet the needs of our volunteers, members, while updating infrastructure to allow for a stable, secure environment in which to share information.

During a time when we found ourselves using valuable staff time to take care of basic day to day problems with our technology, RK Dixon was able to provide us with network support through the CompuSuite service. This service has freed us up so we can concentrate on our mission critical business.

We plan to continue our partnership with RK Dixon in the future by utilizing their consulting team to ensure we have a strong, effective structure for the future of our organization.

I highly recommend RK Dixon for your business needs. We have found them to be more than just a copy, printing and document business. They have become an integral part of our operations and truly believe that they are our partner, who will help us to deliver the best service possible to our community.

Sincerely,
